

Serial No. 09/749,637

Amendment dated September 9, 2003

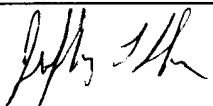

Reply to Office Action mailed 4 August 2003

**REMARKS**

In response to the Examiner's objections regarding embedded hyperlinks, Applicant has deleted the three web addresses as required. Applicant deletes them only to comply with formalities, and Applicant does not admit or abandon anything by deleting the web addresses. Applicant referred to the web addresses only to provide general information; therefore, Applicant believes that the specification as amended still enables the ordinary person skilled in the art to make and use the inventions as disclosed in the original application, and also adequately describes them.

In response to the Examiner's objections regarding informalities in claims 20, 42 and 43, Applicant has corrected the obvious typographical errors.

In view of the above amendments and remarks, the Examiner is respectfully requested to withdraw all objections, and allow the application for issuance.
